SPECIAL ISSUE ON WIRELESS TECHNOLOGIES IN FACTORY AND INDUSTRIAL AUTOMATION—PART I

EDITORIAL

| | | |
|-------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|----|
| From Wireline to Wireless Networks and Technologies | <i>R. Zurawski</i> | 93 |
| Guest Editorial: Special Section on Wireless Technologies in Factory and Industrial Automation—Part I | <i>D. Miorandi, E. Uhlemann, S. Vitturi, and A. Willig</i> | 95 |

SPECIAL ISSUE PAPERS

| | | |
|-------------------------------------------------------------------------------------------------------------------|-------------------------------------------------|-----|
| Channel Characterization and Link Quality Assessment of IEEE 802.15.4-Compliant Radio for Factory Environments .. | <i>L. Tang, K.-C. Wang, Y. Huang, and F. Gu</i> | 99 |
| Modular Wireless Real-Time Sensor/Actuator Network for Factory Automation Applications | <i>H.-J. Körber, H. Wattar, and G. Scholl</i> | 111 |
| WiDom: A Dominance Protocol for Wireless Medium Access | <i>N. Pereira, B. Andersson, and E. Tovar</i> | 120 |

REGULAR ISSUE PAPERS

| | | |
|-----------------------------------------------------------------------------------------|-------------------------------------------|-----|
| Fault-Tolerant Time-Triggered Communication Using CAN | <i>M. Short and M. J. Pont</i> | 131 |
| A New Time Independent Asynchronous Protocol and Its Applications | <i>P. Radcliffe and X. Yu</i> | 143 |
| Real-Time Gait Planning for Pushing Motion of Humanoid Robot | <i>N. Motoi, M. Ikebe, and K. Ohnishi</i> | 154 |
| Adaptive Fuzzy Controller of the Overhead Cranes With Nonlinear Disturbance | <i>C.-Y. Chang</i> | 164 |
| Ontology Development for Designing and Managing Dynamic Business Process Networks | <i>M. Therani</i> | 173 |

ANNOUNCEMENTS

| | |
|----------------------------------------------------------------------------------------------------------|-----|
| Call for Papers—7th IEEE International Workshop on Factory Communication Systems | 186 |
| Call for Papers—13th IEEE International Conference on Emerging Technologies and Factory Automation | 187 |
| IEEE Industrial Electronics Magazine Information for Authors | 188 |
